Category: SAFER XML

Component: SAFER/CVIEW

Synopsis: Add Target Indicator to the T0028 transaction

Status: Approved

Disposition: [2007-07-26] Not voted on. Approved by FMCSA for SAFER 7.3.

Description: During the CVISN Deployment Workshop in March 2007, the stakeholders requested the addition of the PRISM Target Indicator to the T0028 transaction.

T0028 transaction currently extracts all data uploaded from the XML input files. Data uploaded via the PRISM Vehicle File (PVF) are currently not part of the T0028 transaction. Therefore, states implementing CVISN and PRISM may need to download two sets of vehicle registration files. This change would allow users to receive all key information via the T0028 transaction.

[2007-05-18] Presented at 2007-05-17 CVISN ACCB meeting.

[2007-07-26] Not voted on. Approved by FMCSA for SAFER 7.3.
